

STAY SAFE ONLINE

Don't Trust Everything

1. Don't open any websites you see

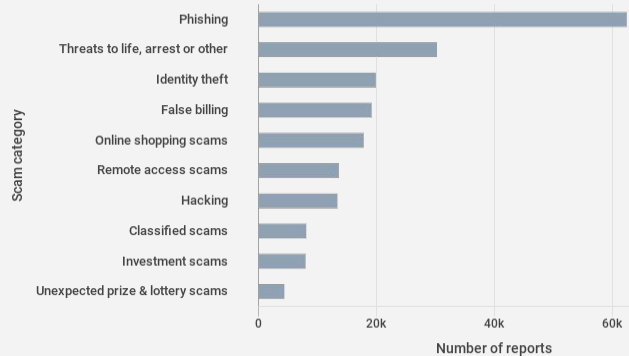

User 1 hour ago

FREE 1 million Dolars!!
free1m.xyz/now

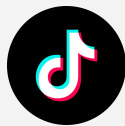

These can appear in texts, Youtube comments, and games.

They often have spelling and grammar errors.

According to this statistic, the most scams are phishing, where they send you a scam.

2. Don't give your info to anybody

facebook

Stranger

Where do you live?

I live in
#####

Even if they are your "Online Friend"

If they ask for anything that no one should know, block them and report.

3. Know what apps you are downloading

Only download apps on an official app store such as:

GET IT ON
Google Play

Download on the
App Store

4. Don't fall for ads from videos

These ads can show you things that are too good to be true. This includes free stuff, and fake virus ads to get you to download things that can be harmful to you.
